[1º] Semestre	[Carga Horária]	[X] ECTS

Programa

In Political Science, “ideology” is a set of ideas or values with a reasonable degree of theoretical coherence that aim to interpret the world and, if possible, transform it politically. The objective of the course will be to critically study four ideologies that defined (and still define) the modern era in its multiple manifestations: liberalism, conservatism, socialism and anarchism. To this end, we will seek to revisit the most relevant authors within these ideologies and the way in which their works influenced the course of political events.

- 1. Ideology: what’s in a word?**
- 2. Liberalism**
- 3. Conservatism**
- 4. Socialism**
- 5. Anarchism**
- 6. The end of ideologies?**
